

Completed Logic Model Example from Workforce GPS

This resource was shared in Research and Evaluation Notes from Workforce GPS in March 2021.

The following figure from the Youth Career Connect: Early Implementation Findings report presents a logic model of the YCC program and displays the key elements of the program. The left side of the figure illustrates partners that provide critical support to the program. The context, as displayed at the top and bottom of the figure, affects program operations and outcomes. The outputs, as displayed in the center, reflect program implementation and lead to the short- and long-term outcomes for participants, displayed on the right.
