

“THE WOMAN IN THE ACCIDENT”

A 72-year old woman was standing at the corner of 17th and Grand on Tuesday, August 15th, 1978. As the woman began to cross 17th, a man driving a dark blue convertible applied his brakes and slid several yards.

When the police arrived at the scene of the accident, the driver was standing next to a yellow car that had stopped at the scene. The driver of the blue car was questioned for 15 minutes and taken to the police station.

The car sustained \$2000 damage. Other damages to the driver included a fractured right leg, broken store-front window, and many cuts and bruises.

The policemen who reported to the scene said that the man was given \$25 fine for not yielding the right-of-way to a pedestrian. The woman was taken to Memorial Hospital in Los Angeles and released.

3. Give each student the following set of questions. After all students have answered the questions, read them the answers. The following scale should be used:
 - 15=excellent
 - 13-14=good
 - 11-12=fair
 - 10 and less=poor
