Increase Your Outreach with Illinois workNet Tools

Agenda:

- ❖ Intro to Illinois workNet
- ❖ Partner Tools to Enhance Outreach Efforts
- ❖ “Significant Events”
- ❖ Brainstorm: Partner Up!
- ❖ Wrap-Up
- ❖ Q&A

Illinois workNet: Evolution

- As technology progresses, so does the portal.

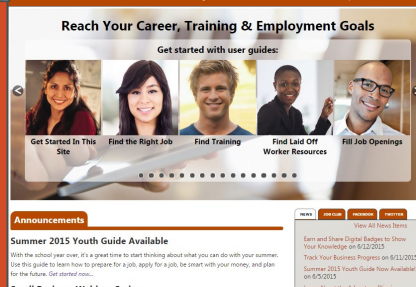

LAUNCHED IN 2005

- by the Illinois Workforce Development Board.
- State's web portal for workforce development.

IN-PERSON & ONLINE SERVICES

Tools connect users to statewide in-person and online services. We assist job seekers, employers, and community organizations daily via Help Desk.

2023-BEYOND

What does the future hold? Input from partners like you help shape site updates and needs.

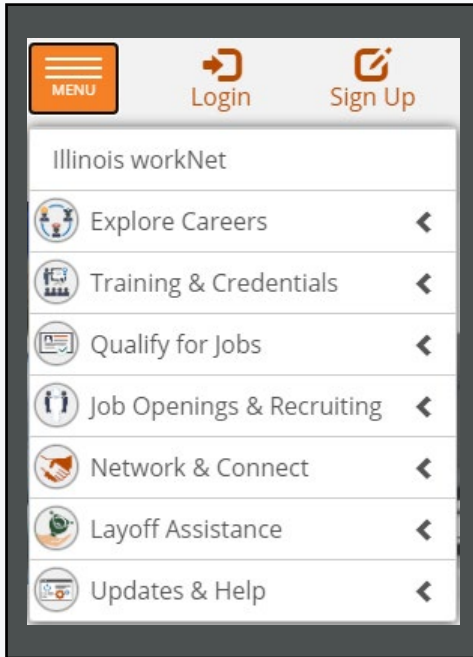

CONNECTS

The portal connects individuals, employers, education and workforce partners to career planning, education and training, and employment tools.

Illinois workNet: Tools & Resources

PARTNER PAGE

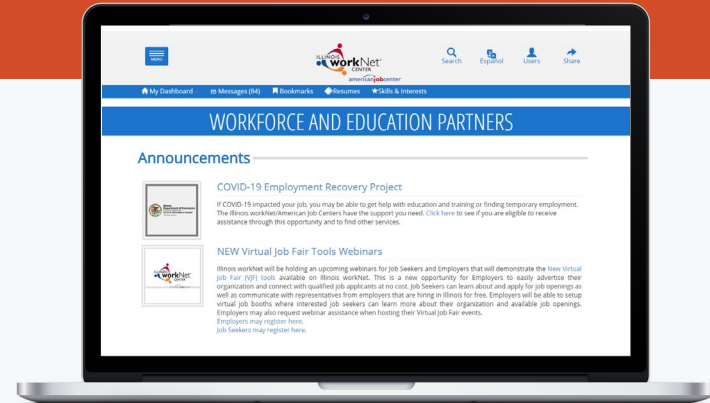

Illinois workNet Partners can access information specifically to help assist customers in meeting their employment and training goals.

A variety of guides specific to tools can help facilitate customers' success.

RESOURCES INCLUDE:

- ✓ Access to Global Partner Tools
- ✓ Program Guide for Partners
- ✓ Access to Illinois Initiatives
- ✓ Assessment Information
- ✓ Customer Support Center/Illinois Workforce Integration System (IWIS)
- ✓ And More

ILLINOIS WORKNET SERVICE FINDER

ILLINOIS WORKNET SERVICE FINDER

The Service Finder is a free service for Illinois residents and employers that offers many great service providers and programs that are available throughout Illinois to help you get through tough times. These services and programs provide support to help you reach your training and employment goals. Use the Service Finder to search for resources that can help you:

- Find jobs
- Prepare for a career
- Find work support such as financial aid, child care, and much more.

For employer, use the search to find your local Business Service Teams (BST) that offers services for:

- Hiring and placement,
- Labor market information, and
- Employee training.

Sites that offer Workforce Innovation Opportunity Act (WIOA) services have an orange WIOA icon.

Resources

ILLINOIS WORKNET WIDGETS

Illinois workNet provides embeddable widgets that partners can customize to add to their websites. The process only takes a few minutes to complete, and the best part is that Illinois workNet maintains the functionality of the widget! If an update is made to the widget, it automatically updates the app on your website.

EMBEDDABLE WIDGETS

Illinois workNet and IOER Widgets

Illinois workNet and Illinois Open Educational Resources (IOER) provide a variety of embeddable widgets that can be customized and added to your website. The process only takes minutes to complete and the best part is Illinois workNet and IOER maintain the widget functionality! If an update is made to one of the widgets, it will automatically update on your website.

Benefits to using these widgets include:

- No up-keep
- Customers and students get up-to-date information
- Widgets are customizable to your needs
- Ability to expand information provided on your website

Browse Widgets

- WIOA Board Activity Tool
- WIOA ePolicy
- IOER Basic Search
- IOER Full Search
- IOER Learning List Explorer
- IOER Library/Collections
- IOER Standards Browser

Guidance

This is the page for embeddable widgets shared by both [Illinois workNet](#) and [Illinois Open Educational Resources](#). Use the menu on the left to navigate between widgets. Each page will provide an overview and either a code generator, or a link to the code generator page. If you need assistance, please use the Contact Us link in the footer of this website.

Styling Tips

This widget is embedded on your page as an iframe. Iframes typically default to 300 pixels wide by 200 pixels high. This is quite small. The content shown by the widget is not of a fixed height. The following tips will help you work through these problems. Don't worry, it's not difficult, it's really easy.

Fixed Size Widgets

As mentioned above, iframes typically default to 300 pixels wide by 200 pixels high, which is pretty small. Fortunately, some CSS styles, whether inline, in a style sheet on the page, or as an inline style, will enable you to have a fixed size widget. Suppose you want to embed the widget in the same column on your page that your main content is normally in, have it be 100% of the width of one column, and 500 pixels high. You can do that as an inline style on your iframe tag. Add `width:100%; height:500px;` to the existing style attribute on your iframe tag. If you don't already have a style attribute on your iframe, add one. It will look like this: `style="width:100%; height:500px;"`.

Borders

Most iframes have a default border. If you'd like a 1 pixel wide black border around the iframe, you can also do that as an inline style on your iframe tag. Add `border:1px solid black;` to your existing style attribute on your iframe tag. If you don't already have a style attribute on your iframe, add one. It will look like this: `style="border:1px solid black;"`.

For no borders, change the above styles to read `border:none;` instead of `border:1px solid black;`.

Variable Height Widgets (Getting rid of Scroll Bars on the Right Side of an iframe)

Calendar Embed Code Generator

You can view a sample of the calendar widget embedded on a page. Fields marked with * are required. Fields marked with > are recommended.

As you enter data, you can see the start of your calendar at the bottom of this page. As you enter more fields you will see your changes reflected below.
